Amtech Takes Top Honors As 2010 AICC/BCN Innovator

At AICC's recent Annual Meeting in Baltimore, Maryland, Amtech took first place in the AICC/*Board Converting News* 2010 Innovator of the Year Competition for its Mobile Delivery Track System.

The Fort Washington, Pennsylvania based supplier also captured third place for its Sales Force Efficiency product. Winning second place was Global Printing Solutions for its Additive for Enhanced Ink Flow & Transfer.

"I am very proud to accept the award for our exciting two new Mobility Software products for the box industry," Amtech's President Cosmo DeNicola said. "When I heard our name called out for third place for our Sales Force Efficiency tool, I was elated. Then when our Mobile Delivery Track System won the top prize of Innovator of the Year, I was thrilled.

"To create an award winning product takes great teamwork. I certainly have to send out a huge 'Thank You' to Mark Handzlik, our Director of Innovation, for working 100-hour weeks and building a system that will invigorate our customers' sales teams and truck drivers," DeNicola added. "Finally I would like to thank our customers. They have been my inspiration for over 30 years and the reason why we are so dedicated to innovating."

Flanked by *Board Converting News'* Tom Vilardi and Jim Curley, Dave Urquhart, Chairman of AICC Plant Innovations Subcommittee, second from left, presents the first-place trophy to Amtech President Cosmo DeNicola.
